EDUCATION

Course/Examination	Institution/University	Year of Passing	Performance
Bachelors of Science (Honours) Computer Science	Indraprastha College for Women (University of Delhi)	Pursuing	9.18 CGPA (2nd year)
AISSCE (PCM), CBSE	Regional Secondary School (Madhubani)	2023	93.8%
AISSE, CBSE	Regional Secondary School (Madhubani)	2021	90.4%

EXPERIENCE

Vice President Anvesha (Rotary Club – IPCW) - 2024 – Present
- Contributing to event planning, community outreach, and team coordination as Vice President of Anvesha.

TechSaksham AI Internship - Microsoft & SAP CSR - Virtual   (Feb 2025 – Mar 2025)
- Developed a web application using Streamlit to match candidate resumes with job descriptions based on keyword relevance and skill alignment.
- Designed a clean and responsive UI, allowing users to upload resumes and view ranked results instantly. **(VIEW PROJECT)**

SKILLS

- **Basics of Microsoft Office (Word, Excel, PowerPoint)**
  Knowledge of creating and formatting documents, preparing presentations, and performing basic data analysis and reporting using MS Excel
- **Python programming**
  Proficient in Python with basic knowledge of Streamlit and Tkinter for web and GUI development; familiar with data analysis concepts and techniques through academic coursework.
  Libraries – Numpy, Pandas, Matplotlib, Streamlit and Tkinter
- **C++ programming**
  Skilled in C++ with a foundational object-oriented programming and algorithmic problem-solving.
- **Web Development**
  Foundational knowledge of full stack web development with HTML, CSS, JavaScript for frontend and Django for backend development.
- **Basic SQL**
  Familiar with SQL for basic data querying, filtering, and relational database concepts learned through academic coursework.

FRONTEND PROJECTS

YouTube Homepage UI Clone | HTML, CSS, JavaScript, Flexbox, CSS Grid
- Built a fully responsive clone of YouTube's homepage, implementing grid-based video layouts and category navigation using Flexbox and CSS Grid.
- Applied DOM manipulation with JavaScript to simulate interactivity and enhance user experience. **(VIEW PROJECT)**

Instagram UI Clone | HTML, CSS, JavaScript, LocalStorage
- Developed a pixel-perfect clone of Instagram's interface including sidebar navigation, story carousel, feed layout, and search modal.
- Implemented Login/Signup functionality with form validation, password toggle, and session handling via localStorage.
- Focused on mobile-first design, reusable components, and client-side interactivity. **(VIEW PROJECT)**

AWARDS & ACHIEVEMENTS

- Science (PCM) Stream Topper -93.8%
- 1st Prize - Website Designing Competition, Vinculum'24 (Computer Science Fest, IPCW)
